# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances )  
On May 4, 1975
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
May 5, - 13, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

EXPORT SALES REPORT

Comments on release of May 15, 1975 (based on reports from exporters during the week ending May 4, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1974/75 declined 66,800 metric tons (MT). Commitments to the European Community (EC) fell by 97,700 MT, while commitments to Iran and the Republic of Korea declined by 50,800 MT and 50,000 MT, respectively. Partly offsetting those declines were higher commitments to Peru (53,500 MT), Japan (48,400 MT) and Algeria (46,800 MT). For 1975/76 shipment, commitments to the Republic of Korea and Japan increased by 50,000 MT and 41,500 MT, respectively.

Feedgrains: The apparent export commitment for 1974/75 dropped by 523,400 MT, bringing the total down to only 10% above the current USDA export estimate of 33.6 million MT. Total corn commitments fell by 614,800 MT, with the only major increase made to Spain of 57,800 MT. Export commitments to East Germany declined by 116,400 MT, and commitments to the EC fell by 264,000 MT, largely because of lowered commitments to the Netherlands (199,600 MT) and to West Germany (103,100 MT). After 11 consecutive weekly declines, commitments to West Germany are now about 50 percent below the March 2 level of 3.7 million MT. Commitments to unknown destinations declined by 101,200 MT, while commitments to Japan, Canada and the Soviet Union were reduced by 91,400 MT, 55,900 MT and 53,000 MT, respectively. Sorghum commitments increased by 90,400 MT, because higher commitments to Venezuela of 184,500 MT and to Mexico of 40,600 MT more than offset lower commitments to the EC (50,800 MT) and several other destinations.

Rice: The apparent export commitment for 1974/75 rose by 16,300 MT, based on small increases to several destinations.

Soybeans: The apparent export commitment for 1974/75 declined by 457,000 MT with EC destinations and Japan accounting for most of the decline. Outstanding sales for delivery during 1975/76 increased by about 13,100 MT including 10,100 MT to the EC and 3,000 MT to unknown destinations.

Soybean Meal: The apparent export commitment for 1974/75 declined by 179,000 MT, including 122,000 MT in the EC and nearly 49,000 MT to unknown destinations. Commitments increased by 533,000 MT for delivery to unknown destinations during 1975/76.

Soybean Oil: Exports declined to 5,300 MT during the week and apparent export commitments for 1974/75 were reduced by 11,300 MT. In recent weeks, European prices declined by well over \$100 per MT, and on May 13, were reported at below \$500 per MT. The Brazilian Government's decision to permit tax credits of 8 percent on two internal taxes, the ICM and IPI, permitted exporters to pass on these benefits in lower f.o.b. soybean oil prices for May delivery. We calculate these tax credits could provide pass throughs up to \$90 per MT to Brazilian soybean oil exporters, and were a major factor in the recent sharp price declines.

Cotton: Moderate late season sales for near delivery continued to the Far East as Hong Kong and the Republic of China (Taiwan) fixed contracts chiefly in staples less than 1-1/16 inch. With cancellations very modest, total 1974/75 commitments now exceed 4.8 million running bales (RB). Japanese demand for staples 1-1/16 inch or more maintained 1975/76 sales at near the previous week's relatively high level. This marks the first time since the downturn in demand that increased sales for 1975/76 delivery have been maintained in the following week. Seasonal exports total 2.7 million RB. Shipments to Japan and the People's Republic of China mostly stapled 1-1/16 inch or more while liftings to the other major destination, the Republic of China (Taiwan), were mostly less than one inch. The Governments of the Republic of China (Taiwan) and the Republic of the Philippines have given assurances that all contracts for 1974/75 delivery signed before August 1, 1974 will be honored. The Commodity Credit Corporation has provided a \$25 million commercial credit line to Taiwan and increased the Philippine line \$10 million. Added to a similar arrangement with the Republic of Korea, these assurances total one million RB. Obviously, all of this cannot be moved before August 1. In recognition of these developments and additional recent sales, USDA's 1974/75 export projection has been raised 200,000 RB to 3.5 million RB.

1/ Includes contract tolerance adjustments 2/ Includes both new purchases from foreign sellers and cancellations of such purchases 3/ Includes quantities deferred to different marketing year 4/ Does not include exports for exporter's own account 5/ Less than 1,000

Data shown above may not add due to rounding.

As the above data indicate, U.S. exporters (sellers) are engaged in many types of transactions. One of the most difficult to understand is one in which the exporter purchases from a foreign seller. Such transactions have the same negative effect on outstanding sales data as do contract cancellations, or buy-backs, between the parties to a contract. The difference is that a purchase from a foreign seller is a separate transaction; it is not involved in a cancellation or buy-back of a particular sale previously made. It is a new contract between other parties, between the same parties for different delivery periods, or similar transactions.
